

Dear Chairman Powell and the members of the FCC,

Thank you for the opportunity to comment. Please don't increase the concentration of media ownership. If anything the media ownership should be dispersed. When things get too big there is a point of diminishing returns. Smaller media ownership would be less dependent on gigantic revenues to operate. Please encourage micro-radio. We need more voices not just those of Rupert Murdoch and Clear Channel. Specifically to Chairman Powell: when there is only one voice and that voice is Gingrich's who will be there to defend your Father?
